Virginia Army Appointments.

The Virginia Chronicle says in regard to the appointment of Colonel Lord as paymaster of the army:

"The receipt of the news was a surprise to Colonel Lord, who is placed in a dilemma, as he was arranging to accompany the Nevada infantry battalion to the field, where he would also hold the rank of major He has not yet decided whether to accept the appointment or to accompany the battalion in active service, his preference being for the latter, but as he applied for the position conferred upon him under the impression that no battalion would be accepted from this state he is placed in a perplexing situation.

"It is generally considered here that in case Col. Lord accepts the paymastership offered him, Captain C. H. Colburn of company A may be the officer selected to command the Nevada militia."

The Virginia City papers also say that the appointment of second lieutenant in the regular army has been tendered to Mark Averill and was accepted by him and he will in all probability receive his commission Working through to DeLain due time. Mr. Averill was principal of the Winnemucca public schools several years ago and has since held a similar position in the Virginia schools.
